

Bee Visible

Recipe

Hook: Mustad #94840 or #94833 Sizes: 10-18
Thread: Black, 6/0
Body: Alternating Yellow & Black Hackle Fibers, tied one size smaller than the hook. Starting at the shank end of the hook with yellow, then black, then yellow then black.
Face: White Hackle

Tying Tips: May also be tied with a gold tinsel underbody.

Fishing Tips: A high floating fly, excellent in fast water.

Historical Note: Created by Tom Deschaine in 2007. This was originally tied as part of my 'bee series' of flies; to be used during those dog days of summer when fish just aren't rising to anything else. It works!
