

Daphnia Cluster Midge

Recipe

Hook: Mustad #94838 Size: 18-22
Thread: Cream or White, 6/0
Body: Clear Antron, loosely dubbed
Hackle: Grizzly, 2 or 3 turns palmered
through the body, clipped

Tying Tips: Extremely easy to tie.

Fishing Tips: Designed to represent the larger *Daphnia* species that inhabit the still backwaters of many of our Michigan trout streams and lakes. Rainbows are particularly fond of *Daphnia*.

Historical Note: This fly was first crafter by Jeff Bonin of North Muskegon, Michigan back in 1994. The fly was designed for the Muskegon River but will produce fish anywhere there are *Daphnia* present.
