

Polar Hex

Recipe

Hook: Mustad #37187 Size: 2-6
Thread: Yellow, 6/0
Wing: Polar Bear Hair, tied spent and sparce
Tail: Two stripped ginger hackle quills,
tied at 45 degree angle.
Body: Light brown & yellow poly dubbing, mixed.
Hackle: Ginger

Tying Tips: I substitute with Mustad #94840 or 94833. You may also substitute polar bear with white calf tail. You may also substitute poly with fur.

Fishing Tips: It should be presented to the trout directly in the feeding lane, during the hex spinner fall. Hackle should be trimmed top and bottom for the spinner fall.

Historical Note: Created for the 'hex' spinner fall by Jay Neve a commercial tyer of Bellevue, Michigan.
